

# START DIGITAL GROWTH

# WEBSITE WITH AI FEATURES

## 1. All Growth Features + AI

- Includes all benefits from the Growth Automation Suite (Lead Generation Websites, CRM, Chatbot, etc.).
- **AI-Powered Tools:** Automate complex tasks with intelligent solutions.

The diagram illustrates the components of the 'All Growth Features + AI' package. On the left, two circular icons represent 'Suite Features': one green icon labeled 'Included Benefits' and one blue icon labeled 'AI-Powered Tools'. Arrows point from these icons to a central chart titled 'HighLevel' which compares various growth features against other tools.

FEATURES	REPLACES	OTHER TOOLS	HighLevel

WHITE LABEL MOBILE APP		\$5K + \$499/MONTHLY	OPTIONAL ADD-ON

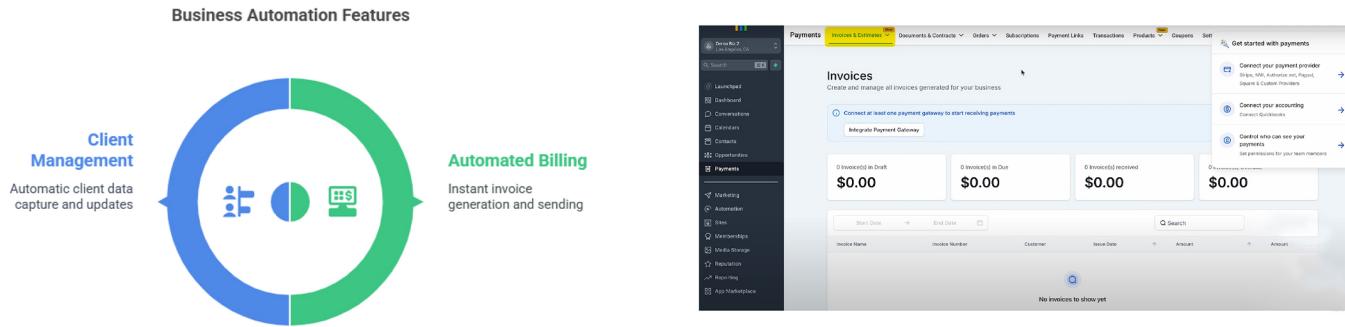

## 2. Three Lead-Gen Websites – Fast & SEO-Optimized

- **Maximum Reach:** Target three different markets or segments.
- **High-Speed Performance:** Fast-loading websites optimized for SEO.

The diagram highlights two key features: 'Maximum Reach' (represented by a green hexagon icon) and 'High-Speed Performance' (represented by a blue hexagon icon). Arrows point from these features to a screenshot of the HighLevel software interface, specifically the 'Funnels' section. The interface shows a 'Create New Funnel' dialog box with options like 'From Blank', 'Funnel AI', and 'From template'.

### 3. Auto-Invoicing & Client Automation

- **Automated Billing:** Generate and send invoices instantly.
- **Client Management:** Automatically capture client data and update records.

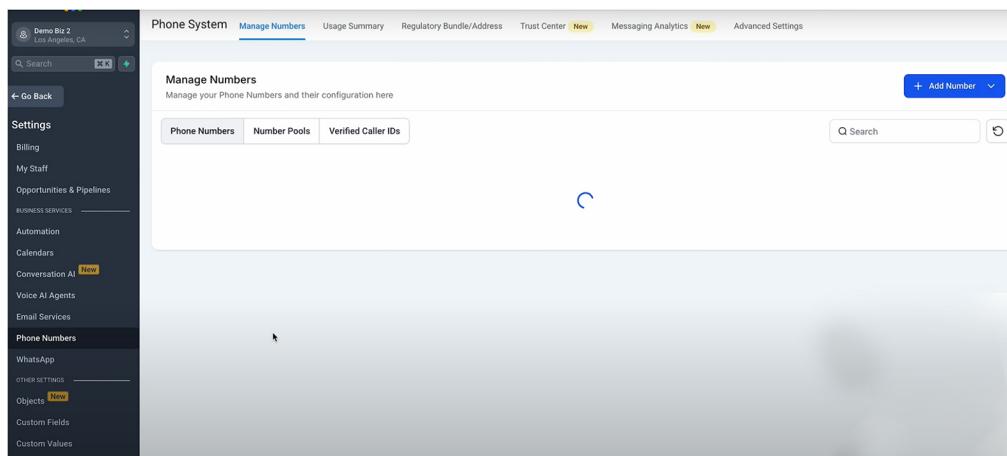

### 4. Staff Tracking & Dashboards

- **Employee Monitoring:** Track task completion and productivity.
- **Visual Dashboards:** Gain insights into team performance.

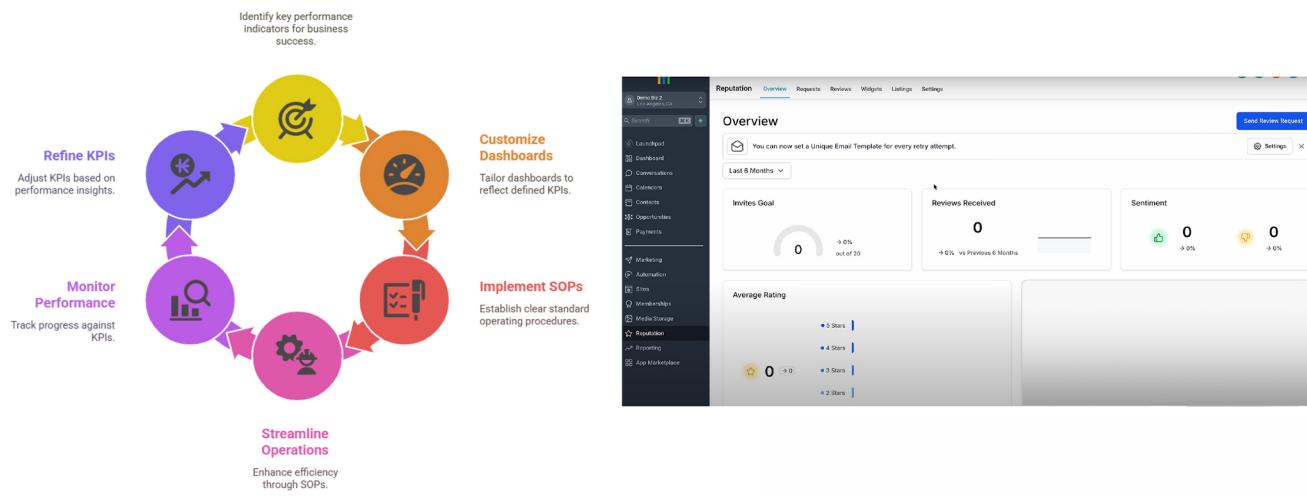

Employee Monitoring vs. Visual Dashboards

Characteristic	Employee Monitoring	Visual Dashboards
 Task Tracking	Yes	No
 Productivity Insights	Yes	Yes

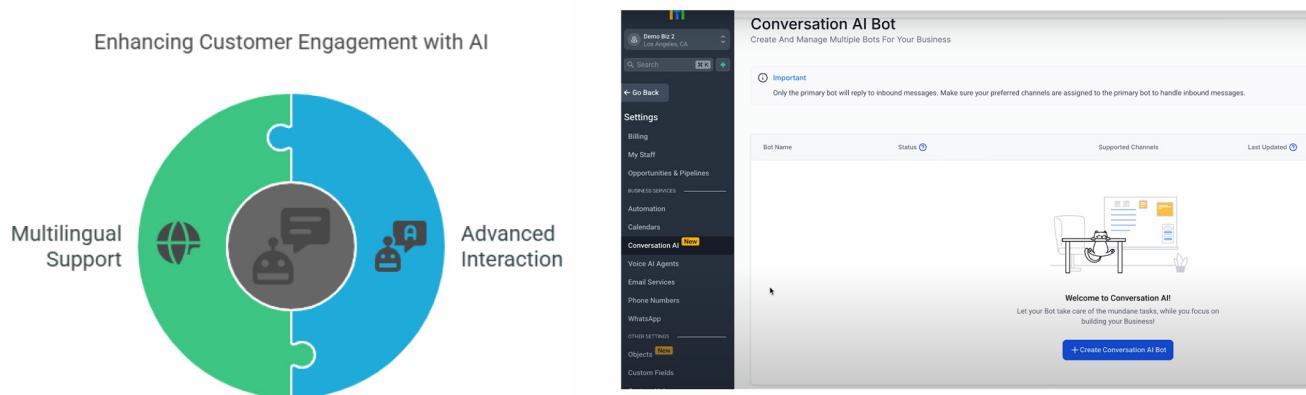

## 5. Custom Dashboards & SOPs

- **Customizable Metrics:** Tailor dashboards for your business KPIs.
- **Standard Operating Procedures:** Streamline operations with clear SOPs.

## 6. 24/7 Auto-Reply Chatbot

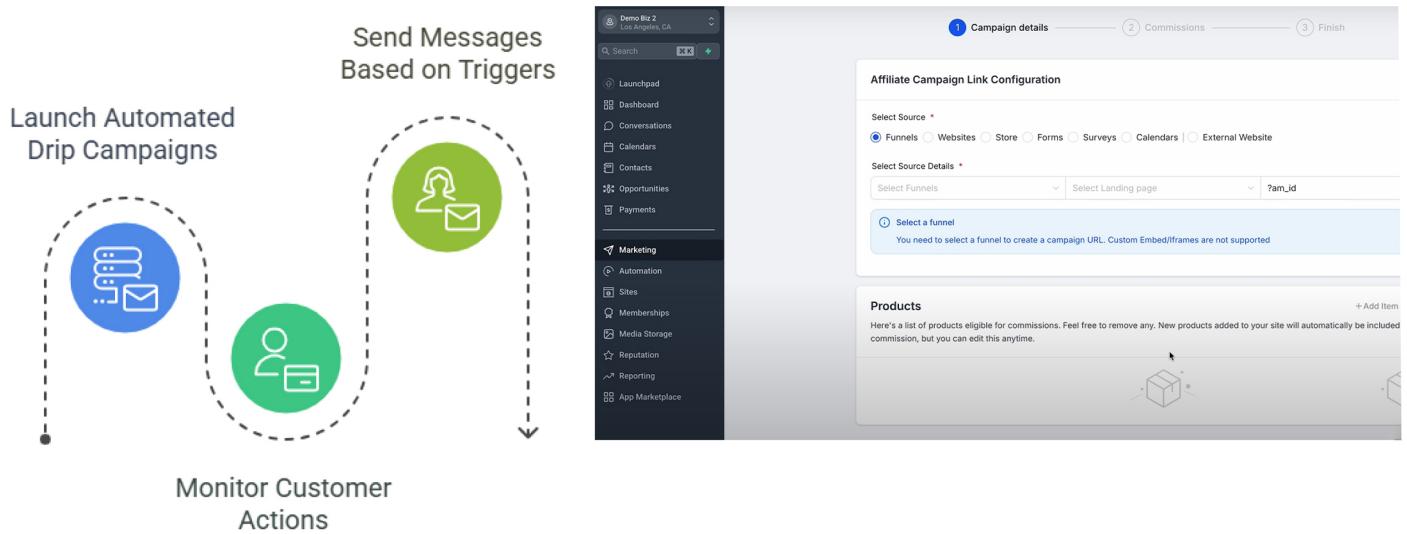

- **Advanced Interaction:** AI-driven responses for customer queries.
- **Multilingual Support:** Communicate in multiple languages.

## 7. Automated Follow-ups & Campaigns

- **Email/SMS Campaigns:** Launch automated drip campaigns.
- **Behavioral Triggers:** Send messages based on customer actions.

### Automated Marketing Campaigns

## 8. WhatsApp API – Instant Messaging

- **Official API Access:** Secure and professional messaging.
- **Broadcast & Group Messaging:** Reach large audiences instantly.

Choose the best WhatsApp messaging strategy for your business.

The screenshot shows a sidebar menu with sections like Launchpad, Dashboard, Conversations, Calendars, Contacts, Opportunities, Payments, Marketing, Automation, Sites, Memberships, Media Storage, Reputation, Reporting, and App Marketplace. To the right, a section titled "Let's get you on the path to success" lists several integration options with "Connect" buttons:

- Apple: Download our app and engage with your leads on the go!
- Google Business Profile: Manage your Google Business Profile within your CRM!
- Facebook: Connect directly with prospects and customers via Messenger in Converstation and sync your Facebook leads with our CRM.
- WhatsApp: Generate leads from your website by connecting webchat. (The chat widget plugin check may not be accurate if the widget code is not directly embedded in the website)
- Integrate WhatsApp: Connect your WhatsApp Business account for instant, real-time communication and reach out to your customers on their preferred platform.
- Stripe: Connect your Stripe account to start accepting payments. (Using stripe API integration will control the work, but it's advised to use Stripe Connect for more security)

## 9. Sales Dashboard – Track & Convert

- **Real-Time Metrics:** Monitor sales progress and lead conversion.
- **Conversion Funnels:** Visualize the customer journey.

### Sales Monitoring Features
